

Students will be screened the first time they enter an SAU Tech building each day.

1. Screening-Screeners will screen students before classes.

Screeners will ask standard screening questions. If the student answers yes to any questions, the screener will complete a health assessment form and contact someone from the **Contact List** in this document.

2. Check temperature

- a. If the initial temperature is above 100.4, wait to allow time for the student to cool off and recheck.
- b. If the temperature is **below** 100.4 initially or after recheck, place a colored sticker representing the appropriate day of the week on the student ID. Students must wear their SAU Tech ID on a lanyard when they are on the campus. Faculty will know that students with the appropriate color stickers for that day have been screened.
- c. If the temperature is 100.4 or **above**, have the student wait and phone someone from the designated contact for the building you are in from the **Contact List**. Ask the student to wait in an area away from other students until the designated contact person arrives.

3. Next Steps

- a) The designated Contact Person will take the student with symptoms to Shumaker Hall room 230.
- b) The designated Contact Person will call or text Shelley Young: 574-4475 or 870-313-1370.
- c) The nursing staff will arrange for the student to be taken to the local health department to be tested for COVID-19.
- d) The student will either be sent home to quarantine or sent to the Quarantine Dorm (Courtney Haygood will be notified).

4. Once The Test Result Come Back

- a) **Positive Results:** The 14-day count starts the day results are received. ADH and/or UAMS will contact the student within 24-hours. UAMS will monitor and screen the student daily via text.
- b) **Negative Results:** The 14-day count starts the day results are received and the student will self-check and report any symptoms that occur to the contact person that UAMS provides.
- c) Once 14-days has passed AND the student has had no fever for at least 24-hours without any medication, they may to return to work or school.
- e) Once UAMS has contacted the positive person, they will then contact anyone considered a "close contact" person. If you receive a call from UAMS to inform you of exposure to COVID-19, you will need to self-report to Shelley Young (574-4475 or 870-313-1370) and then self-quarantine for 14 days begins. You will need to monitor your symptoms during this time and report them to UAMS once they have your test results.

Designated Person Contact List

- **TE Building**
 - Frances Fridell: 574-4531 or 870-687-1071
 - Jodi Eppinette: 574-4584 or 870-807-0246
 - Valerie Wilson: 574-4514 or 870-833-0083
 - Vontisha Murphy: 574-4585 or 870-914-9553
- **Shumaker Hall**
 - Shelley Young: 574-4475 or 870-313-1370
 - Tammy Larkins: 574-4437
- **Administration Building**
 - Gaye Manning: 574-4509 or 870-818-1417
 - Jason Morrison: 574-4501 or 870-390-0497
 - Kimberly Coker: 574-4533 or 870-390-0453
