SAU Tech Faculty & Staff Screening Process

SAU Tech Employees Screening Procedures:

1. SAU Tech Employees will report to their designated areas each day and record their temperatures.
2. If the temp is **below** 100.4, the employee may continue about their daily routine.
3. If the temp is **above** 100.4, the employee must self-report to one of the designated people on the list for their building.
4. Faculty members will also notify Jodi Eppinette.
5. Employees exhibiting symptoms or a fever at any time during the workday must report to Shumaker Hall 230 and the designated contact will notify Shelley Young (574-4475 or 870-313-1370).
6. A member of the nursing staff will make contact with a local health department to set up testing.
7. After testing, the employee will go home to quarantine and await a call from UAMS/ADH for their test results.

Test Results and Procedures

Positive Results: The 14-day count starts the day results are received. ADH and/or UAMS will contact the employee within 24-hours. UAMS will monitor and screen the employee daily via text.

Negative Results: The 14-day count starts the day results are received and the employee will self-check and report any symptoms that occur to the contact person that UAMS provides.

Once 14-days has passed AND the employee has had no fever for at least 24-hours without any medication, they may return to work or school.

Once UAMS has contacted the positive person, they will then contact anyone considered a "close contact" person. If you receive a call from UAMS to inform you of exposure to COVID-19, you will need to self-report to Shelley Young (574-4475 or 870-313-1370) and then self-quarantine for 14 days begins. You will need to monitor your symptoms during this time and report them to UAMS once they have your test results.
